# INTRODUCTION

## PAN TECH ELECTRONICS

Our fuel of growth, consistency, and sustainability hinges on resolutely acquiring customer's confidence and fulfillment.

PAN TECH ELECTRONICS LLC SPC as a pioneering business group in the UAE, headquartered in Abu Dhabi, the vibrant capital of the United Arab Emirates, PAN TECH LLC SPC serves as the central hub for an innovative group of companies. Expanding its reach across the UAE, the group operates collectively to address the region's diverse commercial demands and advanced technological needs, adapting seamlessly to its dynamic landscapes.

- Pan Tech Security Systems & Equipment Trading based in Dubai—the commercial and financial hub of the UAE—delivers advanced security solutions tailored to the fast-paced needs of the city.
- PAN TECH Electronics located in Sharjah, the UAE's cultural capital, as well as a commercial and residential hub, and an industrial and educational powerhouse, supports the region with innovative technologies and expert services.

PAN TECH is a distinguished system integrator that has been a trusted name in the UAE since its establishment in 2006. The company differentiates itself by offering a comprehensive portfolio of premium brands, high-quality products, and reliable services that align with the UAE's rigorous regulations and customer expectations. PAN TECH's commitment to excellence is evident in its focus on precision, quality, and compliance, ensuring unparalleled customer experiences and establishing itself as a leader in the industry.

Specializing in IT, ELV, AV, and advanced security systems, PAN TECH delivers comprehensive end-to-end solutions, encompassing installation, configuration, and managed services. Backed by a team of certified and highly skilled engineers and technicians, the company strictly adheres to government-approved compliance and certification standards, ensuring exceptional project outcomes. PAN TECH occupies a niche market, leveraging its competitive edge through a bespoke and independent approach in selecting the most suitable equipment for each application across IT, ELV, ICT, and Audio-Visual technologies.

With a steadfast commitment to innovation and customer satisfaction, PAN TECH continues to empower businesses and communities across the UAE with cutting-edge technology and reliable services

**We strive to achieve world-class standards in delivering quality, reliable, on-time, accurate and branded products and services**

## **Vision**

We are committed to the ongoing improvement of the services we provide to our clients. Through our commitment and step-up approach towards maintaining high standards, we aim to achieve all our goals and exceed our clients' expectations. It is our vision to earn the trust of our clients by delivering the best quality security services in the region of United Arab Emirates.

We hold ourselves accountable to our clients, staff, and partners by honouring our commitments, providing results, and continually striving to provide the highest quality security services.

- Source, provide, deploy, implement, manage & retain customers with first-rated products and services.
- Work within a complete quality focused and assured deliverance towards endowed projects and relative commitments to respective customers.
- Aiming extensive enduring partnerships with manufactures & Vendors
- Safeguarding employee's safety and employment welfare.

## **Mission**

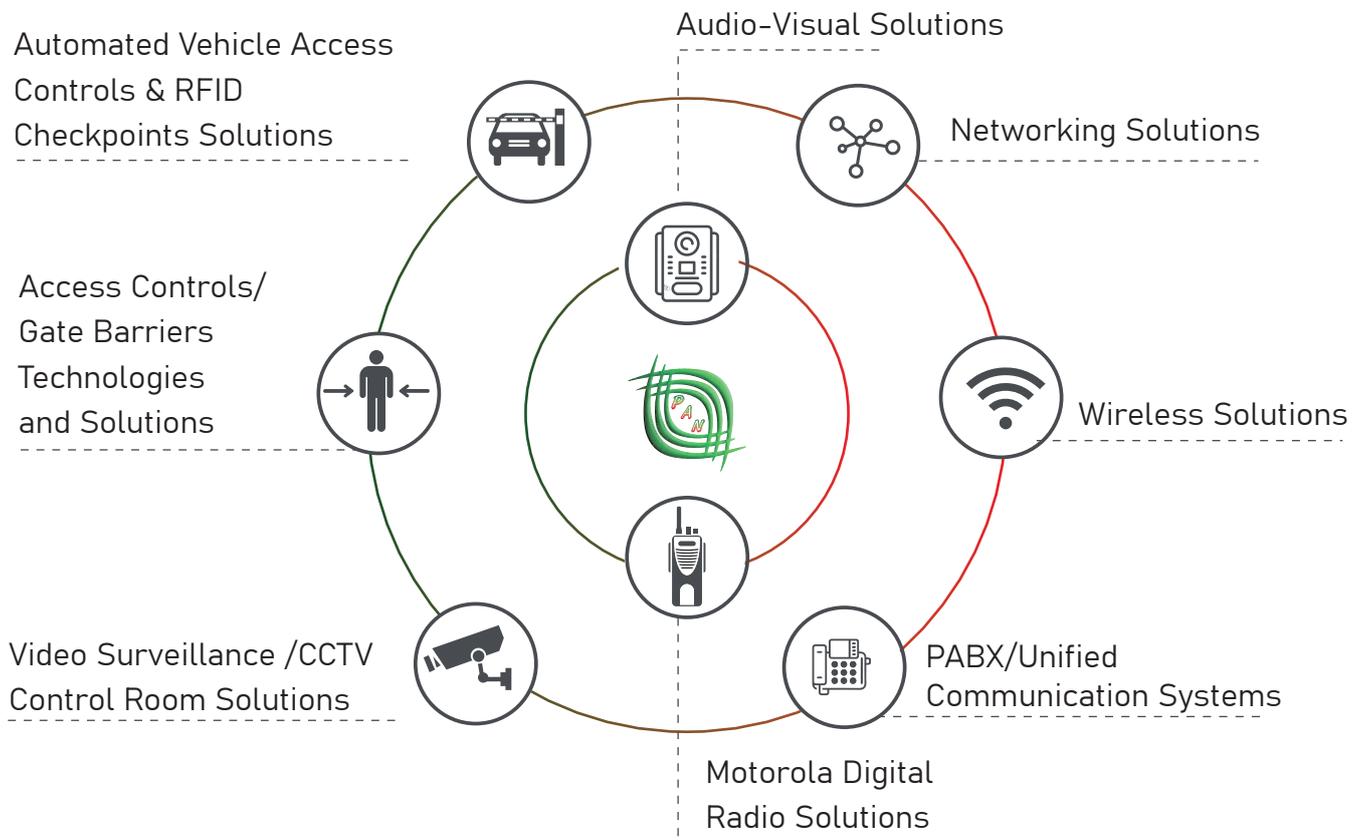

Our mission is to provide a reliable, state-of-the art technology solutions relevant to protection and security to our clients through a bespoke service tailored to their specific needs, ultimately the safety and security of the client's staff, premises, assets, and the community is our highest priority.

Our business is built on trust and relationships forged through successful partnerships with our customers.

We provide reliable, cost-effective solutions to help our customers meet and exceed expectations. Our goal is to provide our customers the best equipment, best methods, and best services in a cost effective, considerate, and detail oriented manner.

# OUR SERVICES

We Pan Tech Electronics possess years of IT/ELV/ICT managed services and applications with high-level engineering services & expertise.

Principally we ensure all these products and solutions are running efficiently and are up to date and upgraded as per each business nature and requirements. Our IT support service-management designed to bring a structure to service-oriented IT departments. It serves as a guide to help organisations effectively align IT goals, security service goals and business goals, especially for companies that are customer focused.

Pan Tech Electronics is proud to have a very sincere, dedicated, hardworking, highly motivated and highly experienced staff the real assets of the company to service the needs of our valuable customers from diverse fields such as Hotel Industry, Oil Industry, Private Offices, Aviation Industry, Government Departments, Financial Institution, Police and Military sites.

As a complete solution provider, we offer after sales service and Preventive Maintenance of the equipment's we supplied or any equipment that falls under our field of expertise to assure unsurpassed performance of the equipment.

# Occupational Health and Safety Policy

Pan Tech will ensure that people carrying out the nominated work have relevant training including Occupational Health and Safety (OHS) Induction Training. Workers will not carry out the site inspection until they have received the minimum requirements for OHS induction training.

1. Industry (general) induction;
2. Work Activity OHS induction; and
3. Site Specific OHS Induction.

At Pan Tech our Occupational Health Safety Policy is based on a belief that the wellbeing of people employed at work or people affected by our work, is a major priority and must be considered during all work performed on our behalf.

People are our most important asset and their health and safety is our greatest responsibility. The public shall be given equal priority to that of our employees.

## The objectives of our Safety Policy are:

- To achieve an accident free workplace.
- To make health and safety an integral part of every managerial and supervisory position.
- To ensure health and safety is considered in all planning and work activities.
- To involve our employees in the decision making processes through regular communication consultation and training.
- To provide a continuous program of education and learning to ensure that our employees, work in the safest possible manner.
- To identify and control all potential hazards in the workplace through hazard identification and risk analysis
- To ensure all potential accident/incidents are controlled and prevented.
- To provide effective injury management and rehabilitation for all employees. The success of health and safety management is dependent on:
  - Pro-active planning of all work activities with due consideration given to implementing occupational health and safety (OHS) controls that are suitable to each given situation.
  - Ensuring the work team is totally committed to achieving our objectives.
  - Ensuring that open and honest communication exists between management and all employees

# VIDEO SURVEILLANCE SYSTEMS (CCTV)

There are a vast range of CCTV products with different prices to choose from in the marketplace. But the result of the project implementation definitely depends on the selection of the suitable product and the proper installation. Pan Tech's professionals are very much happy to guide the customers to select the suitable product depending on the site infrastructure and the client's needs which will give full satisfaction to the customer.

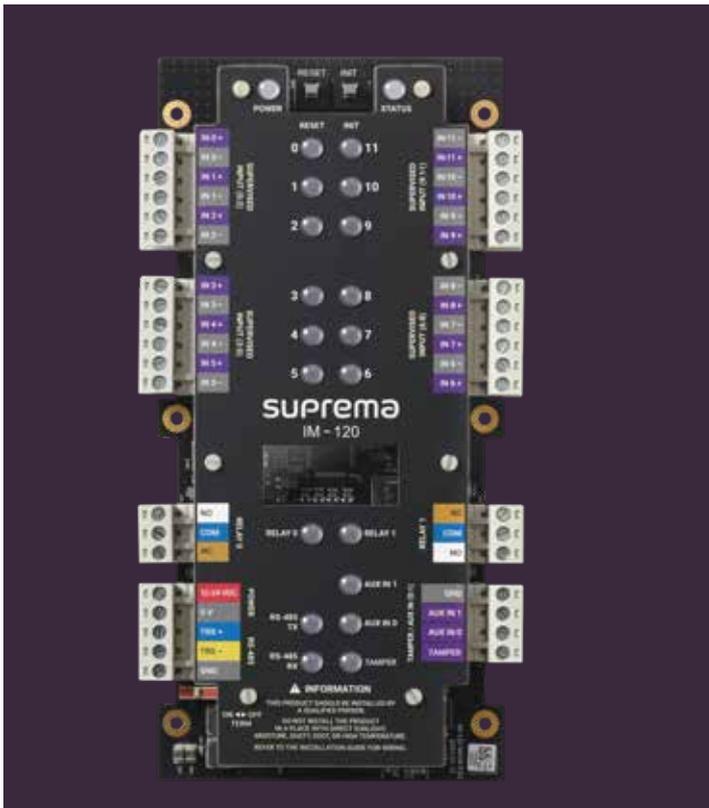

# CCTV Control Room Solutions

# BIOMETRIC SOLUTIONS

BIOMETRICS is the technology used for recognizing and thereby authenticating or screening - people on the basis of innate physical characteristics such as fingerprints, iris pattern, facial geometry, DNA etc. Biometrics establishes identity by recognizing an individual's physiological characteristics, in particular those - such as fingerprints - that are innate to the person, are unique and do not change over time. Now, biometric identification devices have become faster, cheaper, and more reliable, allowing for a variety of applications. Pan Tech provides a range of biometric solutions from which the customer can choose the product as per their infrastructure and requirement.

## PORTABLE AND MOBILE RADIOS

The MOTOTRBO two-way radio portfolio offers you a wide choice of devices, from simple voice-only models to feature-rich voice and data radios. All devices work together seamlessly to deliver advanced features to enhance your safety, productivity and efficiency. With exceptional voice quality and outstanding usability, MOTOTRBO keeps your workforce connected.

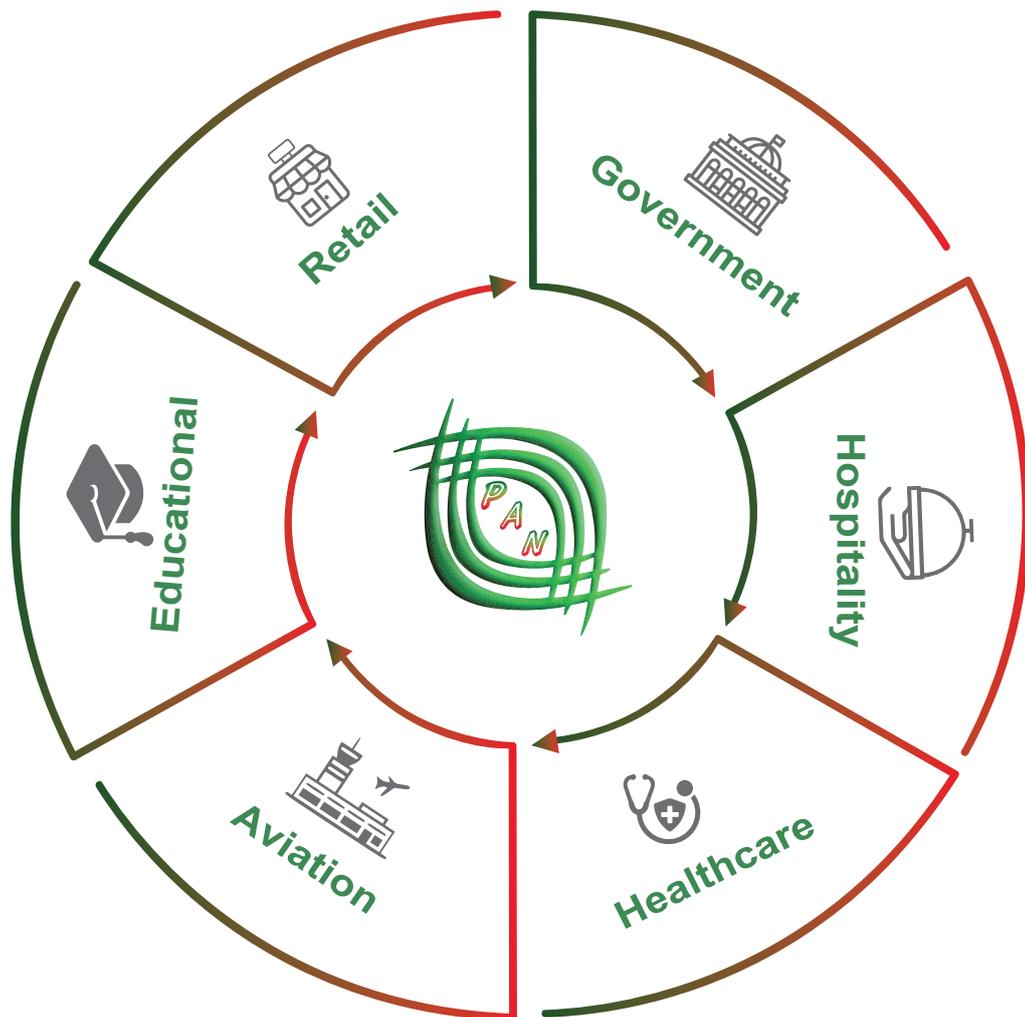

## Our Client References:

## Focused Market Segments

Our business philosophy is built on trust, one customer at a time. Repeat business is one of our most valued assets. We know that each customer has unique needs and concerns. We strive to foster relationships that help build a unique understanding of your individual needs. Through these relationships, we seek to understand our customers' goals and then integrate the right technology and approach to help deliver both a return on your investment and peace-of-mind knowing that your assets are fully protected.
